STANDARD OFFER TARIFF

STREET LIGHTING SERVICE SCHEDULE SL1

Availability

In the Cooperative's Certificated Area where its facilities are of adequate capacity and the required phase and suitable voltage are in existence and are adjacent to the premises served.

Application

The Street Lighting Service Rate (SL1) is applicable for lighting public streets, alleys, thoroughfares, public parks and playgrounds within the Cooperative's Certificated Area as contracted with city, town or other governmental entities. This tariff applies to customer provided lighting facilities which are operated by the Cooperative.

General Maintenance

The Cooperative shall have no duty to inspect the facilities to determine if any lights of any of the facilities operated by the Cooperative are not operable or satisfactorily operable. The duty of inspecting the operation of the facilities is the obligation of the customer. When the Cooperative is properly notified by the customer that such lights or other facilities are not operable or satisfactorily operable, the Cooperative within a reasonable time will maintain such lights or facilities.

Light or Pole Numbering

Customer will provide physical numbering on lights or poles for all installations in order to facilitate accurate inventory reporting and locating. Numbering is required prior to energizing facilities. Numbering must be durable, weather proof, and be legible from the ground and shall follow the numbering scheme the Cooperative will provide to the customer.

Maintenance By The Cooperative

Rates include all labor and material necessary for the inspection, cleaning, and/or replacement by the Cooperative of lamps, photocells and standard fixture glassware. Replacement is limited to certain glassware such as is commonly used and manufactured in reasonably large quantities. The Cooperative will invoice the Customer at the Cooperative's cost for all other replacement material (not labor) used such as poles, fixtures, ballasts, non standard glass, wiring or fusing type devices.

Installation and Maintenance by Customer

The customer is responsible for all the supply, installation and materials, including, but not limited to, foundations, light poles, fixtures, wiring, boxes, trenching, fusing, circuit breakers and panels, up to the point of delivery from the Cooperative's distribution facilities. The point of delivery is defined for the tariff as the point of connection at the base of the pole when the Cooperative's source is underground or at the drip loop at the top of the pole when the Cooperative's source is overhead. This includes all applicable design, engineering, drawings, plans, permits and inspections. The customer is

responsible for all maintenance and repair of lighting circuitry beyond the point of delivery, damage to lighting foundations, and damage to any underground boxes and for all trench stability and backfills.

Type of Service

Single-phase, 60 hertz, at one standard voltage 120/240.

Monthly Rate

For the Customer owned and Cooperative maintained street lighting system including lamps and glass replacements, subject to the customer's responsibility set forth above, the monthly rate shall be as follows, based on estimated average monthly usage for unmetered lights:

Customer-Provided and Cooperative-Maintained Lighting Service	Power Supply	Distribution			Total Rate
		Billing	Access	Total	
150 Watt HPS	\$3.11		\$7.19	\$7.19	\$10.30
250 Watt HPS	\$5.18		\$5.12	\$5.12	\$10.30
400 Watt HPS	\$8.29		\$8.71	\$8.71	\$17.00
55 Watt LPS	\$1.86		\$5.44	\$5.44	\$7.30
90 Watt LPS	\$1.86		\$9.89	\$9.89	\$11.75
135 Watt LPS	\$3.11		\$7.19	\$7.19	\$10.30
180 Watt LPS	\$3.73		\$8.89	\$8.89	\$12.62
100 Watt HPS	\$2.07		\$8.23	\$8.23	\$10.30
Wood Pole			\$1.32	\$1.32	\$1.32
28' Metal Pole			\$3.48	\$3.48	\$3.48
20' - 30' Metal Pole			\$4.15	\$4.15	\$4.15
30' - 40' Metal Pole			\$4.15	\$4.15	\$4.15

Tax Adjustment

To the charge computed in this rate schedule, including all adjustments, shall be added the applicable proportionate part of any taxes or governmental impositions which are or may in the future be assessed on the basis of gross revenues of the Cooperative and/or the price or revenue from the electric energy or service sold and/or the volume of energy purchased for sale and/or sold hereunder.

Wholesale Power Cost Adjustment

The Cooperative shall, if purchased power cost is increased or decreased above or below the base purchased power cost of \$0.081638 per kWh sold, flow through such increases or decreases to all classes of customers.

In addition to the foregoing, all kWh sold to each customer under this rate schedule shall be subject to an additional temporary wholesale power cost adjustment, if any, that may be charged the

Cooperative by its supplier of electricity which consists of an additional surcharge, a temporary credit and/or a fuel bank surcharge.

Rules and Regulations

The Rules and Regulations and Line Extension Policies of the Cooperative as on file with the Arizona Corporation Commission shall apply to this rate schedule.

Upon application for service or upon request, the Cooperative will assist the customer in selecting the rate schedule best suited to his requirements, but the Cooperative does not guarantee the customer will be served under the most favorable rate schedule. Upon written notification of any material changes in the customer's installation, load conditions or use of service, the Cooperative will assist in determining if a change in rates is desirable. No more than one (1) such change at the customer's request will be made within any twelve (12) month period.

Contract

If service is requested in the Cooperative's Certificated Area and the provisions outlined in the Availability Clause of this rate tariff cannot be met, it will be necessary for the Cooperative and customer to mutually agree, in a written contract, on the conditions under which service will be made available.

Service Availability Charge

A Service Availability Charge to be paid by the customer to the Cooperative may be included in the contract to reimburse the Cooperative for its operating expenses with regard to idle or standby services in connection with the facilities constructed or installed pursuant to the contract based upon the Cooperative's estimate of its actual operating costs for such idle or standby services.

Renewable Energy Standard (RES) Surcharge

The Cooperative shall add to its bill a RES Surcharge in accordance with the approved RES tariff to help offset the costs associated with the Cooperative's programs designed to promote alternative generation requirements that satisfy the RES as approved by the Arizona Corporation Commission. Other charges may be applicable subject to approval by the Arizona Corporation Commission.

Demand Side Management (DSM) Programs; DSM Adjustment Mechanism

The Cooperative shall recover its cost for pre-approved DSM programs through a separate DSM adjustment mechanism which shall provide for a separate and specific accounting for pre-approved DSM costs.
